CORNERED AT LAST ZELAYA RESIGNED

Dictator of Nicaragua Lays Down His Power With Final Verbal Shot at United States.

MANAGUA, Dec. 17.—Jose Santos Zelaya has resigned from the Presidency of Nicaragua. He placed his resignation in the hands of Congress yesterday morning. Apparently there was no other course for him to take. The people were at last aroused. The guns of the revolutionists threatened. The warships of the United States lay in Nicaraguan ports.

Managua has been seething for days. The spirit of revolt has spread even to the gates of the palace. Zelaya surrounded himself with an armed guard. Unchecked the populace have marched through the streets, crying for the end of the old, proclaiming the new regime.

Madriz Not Acceptable.

Who will take up the reins no one knows, nor cares. It is sufficient that Zelaya as dictator will be known no more. There is no doubt that Congress will act quickly on his resignation, for the people have demanded it. Dr. Jose Madriz, judge of the Central American Court of Justice at Cartago, who has been close to Zelaya and is now his choice for a President, will arrive here on Saturday. Madriz has his following, strong and influential, even among the revolutionists, but Gen. Estrada, under whose command the great body of fighting insurgents now faces Vasquez's troops at Rama, will have none of him. Estrada's word will bear weight in the choice of a President.

Zelaya's Swan Song.

Zelaya has known, too, that Madriz is not acceptable to the United States, and he has sought to learn who would be looked upon with favor by that government as his successor.

Accompanying his resignation Zelaya sent the following message to Congress:

"The painful circumstances in which the country is plunged, call for acts of abnegation and patriotism on the part of good citizens, who are the witnesses of the oppression of the republic by the heavy hand of fate. The country is staggering under a shameless revolution, which threatens the nation's sovereignty, and a foreign nation unjustly intervenes in our affairs, publicly providing the rebels which has only resulted in their being defeated everywhere through the heroism of our troops.

As to United States.

"To avoid further bloodshed, and for the reason that the revolutionists have declared that they would put down their arms when I surrendered the executive power, I hereby place in the hands of the national assembly the abandonment of the remainder of my term of office, which is to be filled by a substitute of their choosing in the hope that this will result in good to Nicaragua, the re-establishment of peace and particularly the suspension of the hostility of the United States to which I do not wish to give a pretext for intervention."

A commission of five deputies was appointed to draft a bill looking to the acceptance of Zelaya's resignation, which is now considered a mere formality.

News of the President's action spread through the city, and soon great crowds moved through the streets, shouting for the United States, Estrada and the revolution. Held in control for years by the strong hand of Zelaya, the people have been quick to break through restraint when it was certain that the dictator could not breast the tide that has been rising around him.

At End of His Rope.

During the latter days, Zelaya has resorted to all the known tricks and contrivances to hold the people of Managua with him. Reports of a government victory at Rama have been freely circulated and rumors that a massacre of revolutionists had occurred were allowed to spread unchallenged and undenied. It finally became known that these were without a shred of truth and they rebounded like a boomerang.

First one deputy, then another took up the denunciation of Zelaya in the chamber, and later in the public places and soon throughout the city demonstrations were held in which open revolt was voiced. Wednesday night, however, a pro-Zelaya demonstration marked the session of Congress, but this had no effect outside the walls of the House. The rising was more marked yesterday than ever and the President decided discretion to be the better part of valor and withdrew from office.

MORGAN A WORLD FINANCIAL MOGUL

HE SUCCEEDS IN GETTING IN BANK OF ENGLAND.

May Finance the Vatican—Reported That He Will Be Pope Pius' Financial Agent.

LONDON, Dec. 17.—J. Pierpont Morgan is now the foremost figure in high finance, outranking even the Rothschilds. The recent reorganization of the London firm by which it becomes Morgan, Grenfell & Co., Sir Edward Charles Grenfell becoming the junior partner, places the great American financier in direct connection with the Bank of England. Sir Edward is a director in the "Old Lady of Threadneedle Street."

The control of the big insurance companies in America, the steel trust, the great banks and many other enterprises had made Mr. Morgan the foremost financial figure in America.

May Finance Vatican.

It is now said that he proposes to take a leading position in the field of European finance. As an evidence of this, it is said in financial circles that Mr. Morgan is to become the financial agent of the Vatican.

A similar rumor was current sometime ago, but at that time, so the story goes, Thomas Ryan, who is highly regarded at the Vatican, opposed the appointment and the negotiations failed. Now the Ryan opposition is withdrawn and it is believed in this city that the finances of the church will be placed in the hands of American financiers.

There is more or less speculation which connects the name of Morgan with other important financial projects which will further strengthen his position as the world's leading money king.

CURTAIN FALLS ON REIGN OF LEOPOLD

Aged Belgian Monarch Passes Away After Cheerful Fight With Death--- Subjects in Mourning.

BRUSSELS, Dec. 17.—King Leopold died at 2:35 o'clock this morning, his aged and wasted body being unable to stand the strain put upon it. The collapse occurred suddenly and at a moment when the doctors seemingly had the greatest hopes for his recovery.

Throughout yesterday bulletins issued from the sick room indicated progressive improvement. The bulletin posted at 6:30 p. m., gave the King's temperature, pulse and respiration as practically normal.

Apparently the drainage of the wound was perfect as no fever was present and during the day the King had been able to take nourishment.

The End of Leopold.

The public at large was satisfied that the King was on the road to recovery, but within the pavilion where he lay there was a feeling of anxiety chiefly because of Leopold's great age. After a restful day the patient was able to sleep for a brief period early in the evening, and the night passed quietly. But towards 2 o'clock alarming symptoms appeared. Suddenly the King turned and called to Dr. Thiriar: "J'etouffe, Docteur, j'etouffe" (I as suffocating)."

Dr. Page was summoned and the two physicians did everything possible to prolong life, but without avail. The end came quickly and after a spell of weakness peacefully.

Prince Albert arrived at the deathbed about twenty-five minutes later. He was accompanied by Princess Clementine. Albert kissed the dead King and left the chamber weeping. Baron Goffinet, the King's secretary, started immediately for Brussels to notify the members of the royal family. As he was entering his motor car he exclaimed:

"To think that only yesterday we were still full of confidence and now the King is dead."

Nun Sees Death Coming.

It appears that the doctors were totally unprepared for a fatal termination. It was a nun as nurse who first noticed the heavy breathing of the King. She called Dr. Thiriar to the bedside. Both Drs. Thiriar and Page resorted to injections of morphine, but this had no effect.

Shortly after the end came the ministers were notified. The first official to arrive at the death chamber was the royal chaplain. The ministers remained in the chamber for considerable time discussing in subdued tones the sudden death and matters of state.

Capt. Loose Faked a Fake On Arctic Explorer Cook

NEW YORK, Dec. 17.—Capt. B. S. ... of this city, secretary of the ... Club, has written Capt. Joseph ... and others that Capt. Au... W. Loose's story of his dealings ... Dr. Cook, as published in a New ... newspaper, was concocted for ... without regard to the truth.

"In the presence of witnesses," ... Capt. Osbon last night, "I heard ... say, 'I was out for the money ... I didn't care how I got it.'"

... Osbon does not believe that ... narrative, as supported by his ..., was a part of any plot to ... Dr. Cook.

"The idea originated with Loose ... Dunkle," says Capt. Osbon. ... had for sale matter in this ... so explosive that nobody ... handle it. When they found ... but they cast about for some... Dunkle was the promoter, ... the workman.

"... Dunkle got most of the mon... That's what Loose says, and now ... trailing around to see where he ... He's got a conscience and it ...

"... these facts in private let... to Capt. Bernier and others, and ... premature publication is a mis... and may spoil what would have ... complete documentary proof of ... assertion, sworn to before a no...

"... had an appointment yester... to sign a confession, which has ... been drawn up. He did not ... and now he has just twenty... ... more. If he does not sign ... the substance of the confes... ... will be printed from notes ... of conversation on which it is based."

Capt. Osbon was not at liberty to name the person who had obtained and drafted the confession. "A ship owner," he designated him; "a former employer of Loose and a man who has personal influence with him."

"How did this man prevail on Loose to confess?" was asked.

"He told Loose straight out," said the captain, "that Loose was playing checkers with his own nose."

Capt. Osbon does not deny that Dr. Cook and Loose had business dealings and that money passed between them. But he said:

"I know enough shipmates of the Doctor who went into the Antartic with him to be sure the Doctor needed nobody to fabricate observations for him. No doubt he set problems for Loose by which to check his own calculations."

Neither Loose nor Dunkle could be found last night.

Story Is Told Again.

Ottawa, Ont., Dec. 17.—"Capt. Loose has confessed that his story published in a New York newspaper is a lie from beginning to end. We hope to have his confession sworn to in a few days."

This, in substance, is the statement made in a letter received here yesterday by Capt. Bernier, commander of the Canadian exploring steamer Arctic. The letter, Capt. Bernier states, is from Capt. B. S. Osbon of New York, secretary of the Arctic Club, of which the explorer is a member.

It was Capt. Bernier who received the first letter from Dr. Cook after his dash to the pole, announcing the success of the journey.

Nice Auto Party.

Dr. J. D. Watkins, C. E. Melton, Dr. L. Montgomery and son, Dr. Lucius, all of Micanopy, were a quartet of prominent Micanopy citizens who paid the city a visit yesterday for the purpose of doing some of their holiday shopping. The greater part of the crowd became lost from Dr. Montgomery, Sr., who good-naturedly declared that he left home so seldom he was sure to be found taking in the sights.

HAWTHORN.

HAWTHORN, Dec. 17.—Yesterday was a gala day in Hawthorn, the occasion being the laying of the cornerstone and dedication of the new hall just completed by the combined efforts of the local organizations of Masons, Odd Fellows and Woodmen of the World, all of which have flourishing lodges here.

An old-time Southern barbecue was enjoyed by the hundreds of guests drawn together from all parts of this and adjacent counties. All business was suspended, and after the barbecue the corner stone was laid with the impressive Masonic ceremonies. A dance was given in the evening by the young people in honor of the visitors. Mr. Nathan Pettit of Waldo Major Webster, Mr. Cushman, J. C. Adkins of Gainesville, Mr. Hackett of Palatka, were in attendance in laying the corner stone.

Elected Honorary Members.

At the last business meeting of J. J. Finley Chapter, U. D. C., Mesdames Sarah Adamson and Helen Taylor Chesnut were unanimously elected honorary members of the society, and they feel complimented in having these ladies associated with them.

Southern Negroes May Get A Million Dollars in Cash

WASHINGTON, Dec. 17.—If the efforts now being made to pass a bill refunding more than a million dollars to the beneficiaries of the Freedman's Savings and Trust Company are successful, there will be distributed not less than $20,000 to negroes in Savannah, $30,000 in Charleston, $25,000 in Richmond, $40,000 in Norfolk and similar amounts in other cities of the South.

Heretofore efforts to pass this bill have failed but its promoters now believe that they will succeed. They have designated W. T. Vernon, register of the treasury, as the general custodian of the fund and as he is a negro and would probably know how to distribute the money better than a white man, it is not improbable that it may become a law in the near future. Representative Southern Congressmen are now back of the movement.

New York Society Women Aid Girls in Their Strike

NEW YORK, Dec. 17.—Prominent society women, in response to the call of Miss Anne Morgan, daughter of J. Pierpont Morgan, have given $1,300 in cash to aid the striking shirtwaist girls here.

... were made by Mrs. J. Borden Harriman, Mrs. William K. Vanderbilt, Mrs. Clarence Mackay, Mrs. O. H. P Belmont, Mrs. Harriet Stanton Blatch, Madame Nordica and Julia Marlowe, all of whom attended a meeting in aid of the strikers, called by Miss Mor...

COMMITTEE DECLINES THE AIR SHIP SHOW

MONEY ASKED WAS TOO MUCH FOR SINGLE ATTRACTION.

Further Effort Will Be Made to Have Large Line of Attractions Early in the Spring.

All negotiations pending the air ship proposition for a week's show in Gainesville have been declared off, and the committee will, following the holidays, prepare for a big carnival week.

In a thorough canvass made by the committee, comprising Dr. Johnson and L. J. Burkhim, they saw that a little less than half of the money could be raised for the air ship show of the week, and found that it was the general opinion of the business interests that a carnival show, backed with a good band and a good list of attractions thoroughly advertised, would do the city a great deal more good for less money.

Following the holidays another effort will be made to raise sufficient funds to put this line into execution, and thoroughly advertise the matter for one big week of festivities.

What the business interests want is a line of attractions that will be scattered over the streets of the city, and they believe that sufficient funds can be raised for the percentage required of the carnival people to defray all expenses, with some to spare.

For a show of this description less than $10 from each of the business men would raise ample funds to make the proper advertising, and at the same time it would prove of benefit to the people who are compelled to guarantee the money, and nearly all of this amount would be returned to the business men.

There are now several of the carnival attractions scattered throughout the State, and the Wright-Turner Shows that are now playing here would be glad to return with almost an entire list of new attractions for one big week managed by the merchants.

Following the holidays, in the early part of January, another meeting will be called for this purpose, when it is sure that some action will be taken.

TWENTIETH CENTURY CLUB.

Interesting Meeting at the Home of Mrs. E. E. Cannon.

Mrs. E. E. Cannon welcomed the ladies of the Twentieth Century Club to her home on Monday afternoon, December 13th. Mrs. J. M. Taylor, in her usual impressive manner, presided. Mrs. J. L. Medlin, chairman of stamp committee, reported seventy-five dollars received from sale of stamps for benefit of tuberculosis. Much credit is due Mrs. Medlin, also the ladies of her committee, for their perseverance in this noble work.

A most delightful and instructive hour was spent, with Mrs. W. S. Dorsey as leader. Subject, "With the Artists." Roll-call responses about artists proved very interesting.

A well-prepared paper, "Early Italian Painters," was read by Mrs. J. W. Tench. Music and "Cavalleria Rusticanna," by Miss Titman, was well rendered and greatly enjoyed.

Miss Belle Sadler recited "That Old Sweetheart of Mine." We are always glad to hear her and feel that she adds much to the program.

The next meeting will be on Monday afternoon at 3 o'clock, December 27th, at the home of Mrs. W. M. Dale, with Mrs. W. L. Hill as leader.

PURSE WAS TAKEN.

Picked From Pocket of Miss Perry at the Carnival Grounds.

Sometime during Thursday evening, while mingling among the crowd at the carnival grounds, the purse belonging to Miss Carrie Perry was taken from her pocket, and she never missed the same for some minutes afterwards.

She had accompanied a crowd of friends to the ground for the purpose of taking in the shows, and after having visited a number and was enjoying the sights on the midway she was jostled about in the crowd and it is supposed that this was the time when the purse was taken.

The Correct Time

To stop a cough or cold is just as soon as it starts—then there will be no danger of pneumonia or consumption. Just a few doses of Ballard's Horehound Syrup taken at the start will stop the cough. If it has been running on for sometime the treatment will be longer, but the cure is sure. Sold by W. M. Johnson.

A Costly Client.

Miss Bayley told me that Mr. Phipps the oculist, told a gentleman, who told her, the following anecdote of the late Duchess of Devonshire: Mr. Phipps was sent for to Chatsworth to operate upon the duchess' eye. He stayed there some time and at parting received from the duke a fee of £1,000. Just before he stepped into his carriage a message from the duchess brought him to her chamber. She hoped the duke had done what was handsome by Mr. Phipps. The gentleman protested:

"Yes, and more than handsome."

"It is an awful thing," continued her grace, "to ask, but really I am at this moment in immediate want of such a sum, and if you could, Mr. Phipps."

What could the oculist do? He produced his £1,000, took his leave and never heard of his money from that day to this.—From "Recollections of a Long Life," by Lord Broughton (John Cam Hobhouse).

BIRDS' NECKS.

It's the Number of Bones In Them That Makes Them Flexible.

The flamingoes were making their afternoon toilets in the big flying cage at the Bronx zoo the other afternoon, says a writer in a New York paper. A crowd of children and grown people were looking on and exclaiming with admiring wonder at the way these birds were twisting their long necks about into all sorts of corkscrews and curves when one of the ornithological experts came along and stopped to watch the performance.

"It's the larger number of bones in a bird's neck, not the length, that make it so flexible," he remarked. "There are twenty-three bones in the neck of a swan, for example, and a few more in that of the flamingo. It seems that the smaller the animal organism the larger the number of neck bones. The giraffe, for instance, has only seven bones in his long neck, which has a reach of nearly twenty feet from the ground. That little white throated sparrow over there is only three inches high, but he has fourteen bones in his neck and can almost scratch the back of his head with his bill. The swan has twenty-three neck bones and swings his head about with even greater freedom than a snake."

THE PLEBEIANS.

Their Secession From Rome and Their Rise to Power.

Plebeians were the commons of Rome, who were originally forbidden all political rights. They were for the most part poor and were not allowed to intermarry with the patricians. They served in the army without pay and were sold into slavery for debt and could even be cut into pieces for distribution among their creditors.

Finding their condition intolerable, the plebeians in 497 B. C. seceded to Mons Sacer, near Rome, where they resolved to build a new city. But this step so alarmed the privileged classes that they granted to the commons the right of annually choosing from their own numbers two magistrates, called tribunes, with power to protect them against the aggressions of the patricians.

After the lapse of about 200 years the disabilities of the plebeians were almost entirely removed, and between the years 356-300 B. C. they secured the dictatorship, the censorship and the praetorship as well as the right to be pontiff and augur. Thus the Roman republic, after two centuries of existence, finally secured a democratic form of government.—New York American.

Sweat and Perspire.

It is possible to tell almost exactly when the more elegant "perspire" drove out the vulgar "sweat." According to a writer in the London Gentleman's Magazine in 1791, "for some time past neither man, woman nor child in Great Britain and Ireland of any rank or fashion has been subject to the gross form of exudation which was formerly known as 'sweat.' Now every mortal, except carters, coal heavers and chairmen, merely 'perspires.' For these twenty years past the word 'sweat' has been gradually becoming more and more odious."

Before 1770 or so "perspiration" commonly meant an insensible process, "sweating" the grosser variety thereof. In one of his sermons Wesley remarked that "during a night's sleep a healthy man perspires one part in four less when he sweats than when he does not." That would be meaningless today.

WEST MAIN STREET WILL BE IMPROVED

COAST LINE TO FIX THEIR TRACK WITH ROCK ON ROADWAY.

Will Prove a Great Improvement Over the Present Poor Condition of Sand and Clay.

The Atlantic Coast Line will improve West Main street along their track, especially on the upper streets, and began this work on Friday afternoon.

They are having unloaded on the street a quantity of rock which was ordered for the purpose, and the same will be neatly placed and graded all along the street about the square and their depot.

While this improvement will be hailed with delight by the general public it is not the kind of a roadway that they have been expecting and anticipating for the past several months.

Some months since the council made a special order concerning this street, and the people at that time expected something in the way of vitrified brick, for this class of material was ordered from Masonic street on the south to Mechanic street on the north, but it has been like some of the other orders of that body which were unnoticed.

The city attorney is now in Tallahassee for the purpose of looking after this matter, and it may be that this step has caused them to take even this much needed action—but something has happened that has caused them to commence the improvements.

When finished the work will add to West Main street to such an extent that the city should likewise improve it about the square, for it is traveled as much as any street, and presents a most disagreeable appearance at all times during wet weather.

The next time one of the children catch cold, give it something that will promptly and freely but gently move the bowels. In that way the cold will at once be driven out of the system. Main, who has been absent for the past number of weeks with his brother in the southern part of the State, returned here yesterday to resume his duties at Rocky Point as agent for the T. & J. railway. He states that they managed to dispose of their orange and grapefruit crop at a nice figure and sold them on the trees long before the season really opened.

MANASSE ADDS NEW LINE.

Has Now Got Ready-Made Goods for the Little Girls.

J. Manasse has added a new line to his already large stock of dry goods, clothing and shoes in the shape of ready-made dresses for little girls.

He has them in all of the latest styles made, and can suit you from the cheapest to the best. In fact, you can go here and purchase the ready-made dresses for the little girls at much less cost than you could buy the material and have them made, or even bother with the trouble of making them.

The large assortment that he has received will last only a short while, and all who desire something nice had better call early to make the best selections.

Resolutions on the Death of Mrs. E. Hughes.

The Presbyterian choir of Archer pause in the din of life's battle to pay a tribute to a fallen comrade and mingle our sorrow with those who mourn the loss of Mrs. E. Hughes, whom our God and Father has called from labor to rest.

Resolved, That we regard it a privilege to commemorate her zeal and love for God's choir on earth, and while we cannot now see the wisdom of God in the removal of so faithful a laborer, yet we bow in submission to Him who never errs.

Resolved, That while we feel most keenly our loss, we would express our sincerest sympathy with that "broken home" and pray God's blessings on the bereaved children.

Congressman Richmond Pearson Hobson sees evidences of war on every side. Zelaya would probably agree with him.

The Treasury bulletin informs us that the corporation tax law "is a revenue measure." Some people had an idea it was a secret service agency in disguise.

Senator Rayner thinks Zelaya should be arrested by the United States and tried for murder. Mr. Rayner would of course resent the suggestion that he is talking for home consumption but nevertheless the free and full circulation of The Congressional Record in his district is a detail which will probably not be neglected by his secretary.

Those who have visited the cemetery recently declare that the rock road being constructed by Sexton Perry under the supervision of Mesdames McCreary and Warner, when completed will be the best piece of hard road ever constructed in Alachua county. It will be interesting to note the cost of this work when the ladies have the figures ready for inspection.

Several yields of 500 bushels of sweet potatoes to the acre are reported to us, and that in the dryest fall for years. Count Leon county on top for a good many things.—Tallahassee True Democrat. Everybody, who knows anything at all about farming, knows that "dry fall" is best for sweet potatoes. But, then, some editors know no more about farming than they know about the Bible.—Jasper News.

Fred R. Allen was in the city today form his farm at Hastings and was displaying some products of his farm of which he is very proud. They are four hogs weighing altogether 447 pounds, dressed, although they are but seven months old. They are as good as can be raised anywhere and indicate that St. Johns county can produce as good pork as any other section. They were purchased by Eugene Masters.—St. Augustine Record.

CAPITALIZING THE HEN.

Dairy products of the farms of the country are more valuable than any crop except corn. Live stock sold from farms and slaughtered on them is worth nearly twice as much as the cotton crop. Poultry products are worth more than the wheat and perhaps as much as the hay.

Not the least of the subsidiary sources of income to the farmer is the product of the American hen. More than $625,000,000 must be regarded as the value of the poultry and eggs produced on United States farms in the year 1909, and of this amount it is safe to say the value of eggs alone represented $300,000,000.

From December, 1908, to December, 1909, the farm price of eggs has ranged from eighteen to twenty-six cents per dozen, while the price to the consumer has ranged from thirty to sixty cents per dozen. At a rough estimate there will be produced this year no less than 1,500,000,000 dozen eggs, which at an average price of say twenty cents, will represent a value to the farmer of $300,000,000. The cost to the consumer at an average price of thirty-six cents would represent the enormous amount of $540,000,000.

It is claimed that the average production of a hen is two hundred eggs per annum, but it is safe to assume that the actual production is much below this figure. Adopting the very conservative figure of one hundred and twenty eggs per hen per annum, we find on the above basis of production, there are 150,000,000 laying hens in the United States responsible for the production of eighteen billion eggs.

At the farm price of twenty cents per dozen, the total income derived from each hen annually would amount to $2. Allowing 40 cents for maintenance and 10 cents for depreciation, which later would wipe out the market value of the hen in four years irrespective of salvage when the period of production is over, the net profit per hen per annum amounts to $1.50.

This profit, according to standards, capitalized on a 5 per cent basis, would place a nominal value of $30 on each hen. For the 150,000,000 hens this would amount to the enormous total of $4,500,000,000.

That the American hen can return a yield of 5 per cent per annum on a capitalization of $4,500,000,000 appears nothing short of remarkable, but such is the case. The entire outstanding capital obligations of the railroads of the United States in 1907 were less than four times this amount or $16,082,146,683, while the total paid out in interest and dividends represented but 4.05 per cent of this amount.

Frank Walpole, editor of The Manatee Record and a strong supporter of Broward in the last Senatorial primary, will support Senator Taliaferro for re-election. Walpole is one of the brightest editors in the State and was appointed treasurer of Manatee county by Governor Broward. Now that Broward is no longer "in the saddle" it is highly probable that he will find many of his former supporters on the other side of the political fence in the next primary. The Sun never did support Broward for a State office, but we like him personally, and had he befriended us as he has some people we know we would at least refrain from opposing him. This editor has never been truthfully accused of ingratitude, and he hopes never to be.

The American Ice Company of New York has been found guilty under the anti-monopoly law. It will dissolve, now that the winter is really here, but it will be found doing business at the same old stand by the first of June.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CONCRETE IN IRRIGATION.

The use of concrete in modern irrigation is discussed in an illustrated article in the January Popular Mechanics, the specinfic instance being the Tieton irrigation canal in the cental part of the State of Washington. The article states:

"Along several miles of this canal the engineers found the conveying of water against the face of precipitous hillsides a difficult problem. Discarding all ordinary flumework, they devised plans for the building of a solid concrete canal. Huge metal forms were made and transported to the vicinity, a feature of the work most difficult, as the canal is miles from rail transportation in the upper reaches of the Yakima valley. The transportation of the necessary cement was also costly.

"In the level portion of the valley these molds were put in place, and the concrete sections were made. Dried by the hot suns of summer, they were then lifted by derricks, transported by horse-drawn trucks, and placed in position by various engineering contrivances. Cemented together, they made a solid flume, open at the top, stretching for miles along the hillsides."

The National Association of Wool Manufacturers' estimate the number of sheep in the United States at 42,000,000, an increase of nearly 2,000,000 over the preceding year. Perhaps the lambs who left Wall Street a year or more ago went West to grow up with the sheep.

Exposure to Wet, dampness and cold, invariably results in a sudden chill, which if not attended to immediately will cause a cold. By mixing a teaspoonful of Perry Davis' Painkiller in half a glass of warm water or milk, the whole system will be heated and the danger of cold avoided. Avoid substitutes, there is but one Painkiller, Perry Davis'. Price 25c, 35c and 50c.

100 YEARS OLD.

Grandma Sanderson, of DeWitt, Mo., Has Lived a Long and Useful Life.

Grandma Sanderson is a wonderful woman. She is in as good health to-day as ever in her life, although she is over one hundred years old.

In a letter to the Peruna Drug Mfg. Co., she gives the highest credit to Peruna for her excellent health and extreme old age. Read what she says.

Surely the evidence presented by such cases as these ought not only to dispel prejudice against Peruna, but inspire confidence in it.

"I will send you a picture that was taken a few weeks before my hundredth birthday.

"I am a true friend of the Peruna Company. I have derived great benefit from Peruna many times. I can say I regard Peruna a very great medicine. I found out the merit of it a good many years ago.

"A little more than two years ago I contracted a very severe cold, which resulted in la grippe. Owing to the severity of the disease, and my extreme age, my case was considered to be very critical. I employed no doctor, but Peruna was the remedy I used, and to-day my health is as good as it ever was in my life.

"However, I still continue to take Peruna, a spoonful every night before retiring."

Peruna is an ideal tonic for old people. It is a compound of herbal remedies that has been known to the medical profession for many years.

Peruna operates as a tonic by cleansing and invigorating the mucous membranes. This explains why Peruna has become so extensively known as a catarrh remedy. Catarrh is simply a condition of depraved mucous membranes. Peruna changes this depravity into healthful vigor.

A great many old people use Peruna, and would not be deprived of it for any consideration.

People who object to liquid medicines can now secure Peruna tablets.

Ask Your Druggist for a Free Peruna Almanac for 1910.

ated three miles south of Bradentown, in the Cedar Hammock drainage district, was sold during the past few days by a real estate agency to Messrs. Graves Bros. and Mrs. Johnson, who recently arrived there from Ohio. It is understood that the price paid was $10,000.

A House In Pompeii.

In the exhumation of Pompeii one house was discovered which was evidently being repaired when the volcanic storm that overwhelmed the city buried it to the ground. Painters, decorators and cleaners must have been busy at the very moment of the catastrophe. Painters' pots and brushes and workmen's tools were scattered all over the house. Telltale spots of whitewash starred wall and floor. Such domestic implements as pots and kettles had been bundled up in a corner all by themselves. There was a bronze dish in waiting before the oven and on the dish a sucking pig ready to be baked. But the oven was already engaged with its full complement of bread. So the pig had to wait. It, however, never entered the oven after all, and the loaves were not taken out. They had remained where placed to bake, it is calculated, close upon 2,000 years. There were twenty-three of them, rather crusty, of course, and somewhat dark colored, but otherwise perfectly preserved.

Whitefield on Love and Marriage.

George Whitefield, the most persuasive preacher England has produced, who died on Sept. 30, 1770, could appeal so powerfully to the emotions that he once enticed all the money from the pocket of the prudent Franklin. Yet he strangely anticipated some modern unromantic views on the subject of marriage. In 1740 he applied to the parents of a young lady for the hand of their daughter, adding, "If I know anything of my own heart I am free from that foolish passion which the world calls love."

When this prosaic proposal was declined the undaunted Whitefield married an elderly Welsh widow "neither rich nor beautiful." This "merry widow" did not make a congenial helpmate, and Whitefield remarked, with refreshing candor, that "her death set 'his' mind at rest!"—Westminster Gazette.

WINDOW GAZING.

A Fascinating Occupation For the Tourist In Paris.

Window gazing is one of the recognized vocations of the tourist in Paris. Everybody engages in this fascinating occupation, and, in truth, it would be impossible to resist the temptation, for the most beautiful wares are set forth in the most artistic manner, and the only way you can withstand the desire for possession is to leave the coin of the realm and even your letter of credit at home; otherwise there is no telling into what extravagance, not to say useless purchase, you may be persuaded when probably you have just gone out for a morning stroll.

Of all these windows the jewelers seem to be the greatest magnets. But the bewildering part of it is that to the man or woman unversed in the knowledge of precious stones the imitations thereof look quite as good as the genuine articles. Pearls, diamonds, rubies, emeralds and so throughout the long list stones are so perfectly imitated that it is small wonder many American women succumb to the temptation of buying them. But there the temptation does not end, for they bring them home with all the intent to dazzle, bewilder and deceive their unsuspecting relatives and friends with the magnificence of their suddenly acquired wealth of jewels. Women whom one would never suspect of wearing imitation gems frequent the shops where they are for sale in Paris in the most open, not to say brazen, manner, while the foreign papers fairly bristle with advertisements of reconstructed and imitation gems, which only goes to show what a lucrative business it must be.—New York Tribune.

Shakespeare's House.

The house in which the master bard was born is located in Henley street, Stratford-on-Avon, England. Washington Irving said of this famous abode of genius: "It is a small, mean looking edifice of wood and plaster, a true nestling place of genius, which seems to delight in hatching its offspring in by-corners. The walls of its squalid chambers are covered with names and inscriptions in every language by pilgrims of all nations, ranks and conditions, from the prince to the peasant, and present a simple but striking instance of the spontaneous and universal homage of mankind to the great poet of nature."

Several years ago the house was purchased by subscription with a view to the careful preservation of it and of its contents for the inspection of future generations.

TORE HIS SKIN OFF IN SHREDS

Itching was Intense—Humor Spread from Hands to Body—Work Interrupted and Sleep Often Impossible—Disease Resisted Treatment

BUT CUTICURA CURED HIM IN THREE WEEKS

"My trouble commenced about two years ago and consisted, at first, of an eruption of small pustules on my hands. These spread later to other parts of my body, and the itching at times was intense, so much so that I literally tore the skin off in shreds in seeking relief. The awful itching interfered with my work considerably, and also kept me awake nights. I tried several doctors and used a number of different ointments and lotions but received practically no benefit. Finally I settled down to the use of Cuticura Soap, Cuticura Ointment and Cuticura Resolvent Pills, with the result that in a few days all itching had ceased and in about three weeks' time all traces of my eruption had disappeared. I have had no trouble of this kind since. H. A. Krutskoff, 5714 Wabash Ave., Chicago, Ill., November 18 and 28, 1907."

SKIN HEALTH

Effected by Cuticura Soap, Ointment and Resolvent.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in acne and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in tetter, or salt rheum—all demand a remedy of extraordinary virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent (liquid or pills) are such stands proven by unquestioned testimonials.

Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

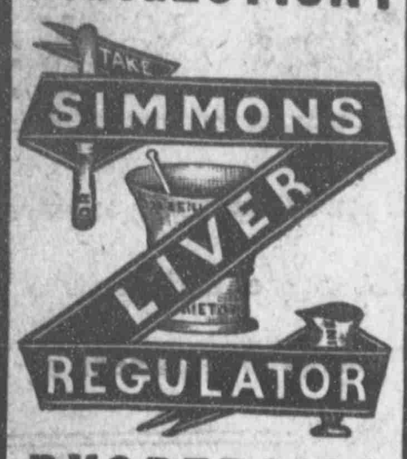
INDIGESTION?



DYSPEPSIA?

Queer Sort of Borrow.

He was displaying with much pride a silver dollar "pocket piece."

"One of my best friends," he said, patting it fondly. "Have had it ten years, and during that time have been dead broke half a hundred times and in actual need of food and a bed quite often."

"What!" a listener exclaimed. "Keep a dollar from sentiment and go hungry and sleepless?"

"I didn't say so," the other replied. "I never went that far. You see, when I'm so hard pressed I use the coin as collateral. I borrow another dollar and give this one as security—to be held till called for. Queer sort of borrow, isn't it? But the coin's too good a friend to desert."—New York Globe.

Identified Her.

A story of lovely woman's ability to rise superior to those petty details which so often hamper, limit and nullify the operations of any mere man is told of a Harrison woman who tried to have a check cashed at a bank where she was not known, says the Newark Call. The usual remarks were made by the cashier concerning the need of identification, to which the woman immediately replied: "Oh, well, that's easy. I can always be identified by this mole on my cheek."

A Mistaken Cure.

"Jennie!" yelled the composer.

"Yes, dear," called back the gentle wife.

"Why in thunder don't you keep that kid quiet? What ails it?"

"I can't think, dear. I'm singing one of your lullabies to the poor little darling!"—Lippincott's.

GAINESVILLE,
—THE—
University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what
